

Don't Get Stranded with a Dead Battery

The Lion Cub JC™ is a compact, multi-functional power bank can easily jump-start dead batteries so you're not caught off guard or embarrassed by needing someone else to give you a jump or a tow.

The Lion Cub JC provides portable power to jump-start your vehicle, provide air to tires, and powers many USB devices i.e. phone, cameras, lamps, and tablets.

KEY BENEFITS:

HOLDS CHARGE LONGER

Retains charge for up to 1 year.

ZERO MAINTENANCE

Used daily, no maintenance required.

MULTIPLE USES

Jumper, air compressor, flashlight, USB outputs

WEIGHTS LESS

The jumper is less than 3 pounds and the entire unit is less than 5 pounds

PORTABLE

Use it in emergencies, for work or for play

KIT INCLUDES...

*Between jumper & compressor

Pair with the Safari UT™ 700

The perfect lithium fishing boat battery to power a trolling motor. The UT 700 keeps you on the water 2X longer than lead-acid batteries.

HELPFUL HINTS:

SOLAR GENERATOR

SAFARI LT™ HINT

The Lion Safari LT includes a lithium battery that can charge with solar power but can also be charged from a wall outlet or from your vehicle. For the quickest charge possible take a look at our Safari LT Fast charger, a high capacity power charger specifically made for the LT. The Fast Charger makes use of the higher voltage Anderson™ compatible input connectors on the Safari LT to charge the it in about 3 hours. [Click here](#) to learn more about the Safari LT Fast Charger.

FAQ:

WHAT DOES IT POWER?

The Safari LT can power anything from a phone or TV to a mini-fridge or CPAP machine for hours at a time. Plus, its size makes it easy to pack into your car.

REVIEWS:

★★★★★ **Great Product** : This Safari LT charged really fast. It showed how much power it has/had on the front panel. It was used all day on a job site, without having to recharge.
- Mrs. B

SOLAR GENERATOR

SAFARI ME™ HINT

This power unit contains a durable, high-quality, high-capacity lithium iron phosphate battery. It has a built-in smart BMS. To achieve the optimal charging capacity, charge the unit within a temperature range of 50° - 86° F. You can use up to 6 - 100W solar panels to charge it. To extend battery life of the Safari ME, use it and charge it at least once every 3-4 months. We recommend using it more often than that.

FAQ:

IS IT EXPANDABLE?

Yes. Sold separately, the Safari ME Expansion Pack (XP) gives you 3x the energy storage capacity than the Safari ME alone. [Click here](#) to learn more about the ME-XP

REVIEWS:

★★★★★ **So Far So Good** : I purchased & tested the ME Deluxe Kit in my camper. It has a standard apt. size refrigerator. I ran the generator for 16 hours and only used 25% of capacity. - Gregory L.

LION ENERGY™
Safe. Silent. Renewable. Power.

lionenergy.com

LION ENERGY'S MISSION

Is to provide portable products that are safe, silent and renewable so you can use them wherever and whenever you want. We make products that are good for people and good for our planet. Period. We are driven by this passion. Lion Energy products are designed for everyday use – around the house, at work, on the go or during emergencies.

Our products are high-quality, lithium battery based solutions for everyday living. They range from small portable power banks and silent solar generators to RV batteries for auxiliary power, and solutions for residential energy storage.

We help you become energy independent with power to live life on your terms.
